

# Physics 6311: Statistical Mechanics – Feedback Questionnaire

---

Sep 19, 2023

## Lectures

- Overall level: **8** **1**  
too easy / rather easy / average / rather hard / too hard
- I know the math used in the lectures: **3** **6**  
always / most of the time / significant gaps
- I feel I am missing physics prerequisites **1** **7** **1** **9**  
yes (which?) / no
- Of the lecture content, I already knew **1** **7** **1**  
all / most / some / a little / nothing
- Pace: The lectures are **1** **8**  
too fast / O.K. / too slow
- Books: I'm using the textbooks by **3** **2** **5**  
Chandler / Kardar / other (which?)
- For following the lectures, the books are **2** **3** **2**  
necessary / useful / unnecessary
- Further comments or suggestions concerning the lectures? (use back of sheet if necessary)

## Homework

- Overall difficulty compared to other PhD level classes (NOT the amount of work, see next point for this) **7** **2**  
too easy / rather easy / average / rather hard / too hard
- Amount of work compared to other PhD level classes **8** **1**  
much less / less / same / more / much more
- Problem set descriptions: **1** **8**  
too vague / sufficiently clear
- Lecture notes are sufficient to do the homework (not counting math, such as integration etc) **5** **3** **1**  
always / sometimes / never
- Books: For working on the homework, the books are **5** **4**  
necessary / useful / unnecessary
- Further suggestions concerning the homework?
